

Product Description

1. Advanced servo motor for feeding&collecting system;
2. Three feeding modes for different operation conditions: inserted type, deposited feeding type with two rollers, deposited feeding type by dragging media with three rollers;
3. Integral machine body with higher accuracy of feeding and collecting;
4. Unique printhead protection stack;
5. Secondary ink tank and ink circuit heating system;
6. Three-stage adjustable temperature heating for media;
7. Reserved suction outlet for automatic printhead cleaning;
8. LED lights the printing bed for better observing printing quality and color bar;
9. NA - 320B/ 8B : 80m²/h,120m²/h.

Note: automatic collecting system & infrared heating and fan drying system can achieve unattended printing. (Optional for C8)

Model	NA-3204B / 8B / 12B
Nozzles	180 x 360 dpi - 720 x 1440 dpi
Printhead quantity	4/8/12 KONICA PRINthead
Printhead	KONICA PRINthead 14/35/42 PL 2pss
Print speed	2pass 80m ² /h 60m ² /h 3pass 52m ² /h 40m ² /h 4pass 40m ² /h 30m ² /h
Max printing width	3.50 m.
Max material width	3.20 m.
Usable materials	Coat paper,high glossy photo paper,PVC,flex, VINYL
Ink	NKTM INK
Heating equipment	Coat paper,high glossy photo paper,PVC,flex, VINYL
interface	USB 2.0
Working environment	temperature 15~30, humidity 30%~90%
Operating System	WINDOWS XP/VISTA/WIN 7
