

INKJET PRINTER

SMART : SM1802/4

ต้นทุนวัสดุพิมพ์

- หมึกพิมพ์สีตรง: 1200 บาท
- วัสดุสำหรับบานพิมพ์ ๓รณ.๘: 18 บาท
- สติกเกอร์วีวีซี ๓รณ.๘: 28 บาท

หมึกพิมพ์ไอโซวัน
ความละเอียดสูง 1440 DPI

Super configuration surpass imported printer

1. All-Metal printhead maintenance helps positioning accurately with a 3 years' uselife.
2. Adopt molded-designing in frame,the printer looked more exquisite.
3. Use high-power brushless servo motors for the X&Y motion system,it will avoid shaking even in high-speed printing mode.
4. All the electronic components and accessories are imported packaging and are of stable performance.
5. Double feeding system includes an active feeding motor and a passive feeding device,avoiding deviation during printing.
6. Three section heating system greatly improving the ink absorption of material,ensuring an exquisite and glossy quality of the picture.
7. Drying system helps drying the picture soon.
8. High-quality LED lighting configuration is convenient for detecting the picture.
9. Automatic off-work protection of the printhead maintenance will keep the printhead from being dry or blocked.

TRAINING UNTIL EXPERT

SMART 1901/1902S	
Model	SM1802/4
printhead	Epson DX5 (DX6/DX7) 1440Nozzles 1printhead/2/4printheads
Printing Width	1.82m
Resolution&Speed	Single-head : draft mode 21m/h Fine mode 16.8m/h high resolution mode 13m/h Double-headed : draft mode 42m/h Fine mode 33m/h high resolution mode 26m/h
Color	16.7million CMYK
ink	W : Water-based Ink S: Eco-solvent Ink
Media Width	1.9m
Media Media Handling	Roll to Roll Auto Feeding Auto Taking-up
Media Drying	Pre-heating/Post-heating, Cool Fans/ Thermal Fans (Optional)
Image Data Format	TIFF, JPG, EPS, PDF
RIP	Mainstop
Printing interface	USB 2.0(Windows XP/2000/nt/xp/7.etc.)
Control Station	Windows XP/ Win7 Workstation
Power Supply	AC 220V, 50HZ±10%, UPS is required
Power Consumption	1100W
Working Conditions	Temperature 20°C—30°C, Humidity 60%—70%

รับประกัน 1 ปี
ฟรี: ฝึกอบรมและบริการ
*not include printhead
